FROM THE

# President & CEO

Each year, Sarah Bush Lincoln prepares a Medical Staff Directory to provide area residents with valuable information about the medical and dental staff of the Health System.

On these pages you'll see the names, faces and special certifications obtained by doctors and mid-level providers who represent a wide variety of specialties – from Allergy to Weight Management.

A vast majority of the medical staff is board certified. Board certification indicates that a doctor has finished his or her residency and has passed a required examination. Additionally, others are prepared for board certification in their specialties, an indication they have completed their residencies and may take the examination for certification in that specialty area.

We have also included listings for mid-level providers – certified physician assistants, certified registered nurse anesthetists and advanced practice nurses, healthcare professionals who provide medical care under the supervision of doctors. Each physician assistant, certified registered nurse anesthetist and advanced practice nurse listed has allied health staff privileges at the Health Center.

Each of our doctors and mid-level providers brings skills to his or her patients that are essential to the good health of our community.

We hope you will use this directory when you find yourself in need of medical care. If you have any questions about a doctor or specialty, or if you are not sure what type of doctor can best address your particular medical needs, please call our toll-free Physician Referral Line at **1-800-255-2944**.

This directory is always available online at **[www.sarahbush.org](http://www.sarahbush.org)**.
