Trusted Compassionate Care

Course Overview

The initial moments and actions taken when cardiac arrest occurs are the most critical to improving survival rates. Advanced Cardiovascular Life Support (ACLS) course is designed for healthcare providers who either direct or participate in the resuscitation of a person.

This course is designed to enhance your skills in the treatment of arrest and peri-arrest through active participation in a series of simulated cardiopulmonary cases.

ACLS Provider course is a two-day course.

The recertification course is a one-day course and is offered at two different times on the day of class.

Class size is limited to 18 students per class and will be on a first-come, first-serve basis.

Telemetry Course is a prerequisite to attend.

ACLS Core Concepts

The goal of the ACLS course is to improve the quality of care provided to the adult victim of cardiac arrest or other cardiopulmonary events.

Core Concepts:

- Identify and treat medical conditions that place a person at risk or cardiac arrest.
- Complete the Basic Life Support (BLS) Primary Survey
- Complete the ACLS Secondary Survey
- Understand ACLS Algorithms
- Develop effective resuscitation team dynamics
