

Win a Week Long VACATION to the Destination of Your Choice

Includes a \$500 travel allowance!

This prize is good for a seven-night vacation stay at your choice of resort destinations around the world.

Drawing will be held June 19, 2020.

Resort Vacation Certificates program offers a world of vacation options in desirable locations across six continents, so everyone can find a destination that speaks to them. Some of the most popular locations include Orlando, FL; Branson, MO; Myrtle Beach, SC; Puerto Vallarta, Mexico and Canadian Rockies, Canada. Travel must be completed by Fall 2021.

Special thanks to KC Summers for the donation of this Resort Vacation Certificate.

I'd Rather Be Golfing...

BUT I STILL CARE

Due to the COVID-19 pandemic and the uncertainty of social distancing requirements and to keep our golfers safe, the Sarah Bush Lincoln Health Foundation has made the difficult decision to cancel the 31st Annual Golf Benefit. Though we will miss seeing you at the outing, we'd still like to provide you with an opportunity to "participate" and show your support of Sarah Bush Lincoln.

This year the golf outing was to benefit our children's Dental Program. While that is absolutely a program that needs your support, you may select COVID-19 Relief as another option.

Sarah Bush Lincoln Dental Program

The Sarah Bush Lincoln Dental Program travels to more than 70 locations across East Central Illinois providing preventive and restorative dental care to thousands of uninsured/underinsured children who qualify for the free or reduced-school lunch program. With 20 percent of area residents living below the poverty line, it's no surprise that one in eight children doesn't even own a toothbrush of their own.

In addition, hundreds of area children suffer from severe dental decay that results in excruciating pain. Through the SBL Dental Program, they receive the care they need, including exams, cleanings, sealants, X-rays, fillings, extractions and root canals.

Your support of our program helps us answer these unmet needs in our community.

COVID-19 Relief

Hospitals across the nation are facing never-before-seen challenges related to suspended elective surgeries and an urgency to purchase personal protective equipment such as masks and isolation gowns. There are also increasing needs in other areas, related to the pandemic. Your support will help us where the need is greatest.
