## Course Overview

The Pediatric Advance Life Support (PALS) course is designed for healthcare providers who initiate and direct advanced life support through the stabilization or transport phases of a pediatric emergency.

This course is designed to enhance the participant's skills in the evaluation and management of an infant or child with respiratory compromise, circulatory compromise, or cardiac arrest.

The goal of the PALS course is to improve the quality of care provided to seriously ill or injured children, resulting in improved outcomes.

**Telemetry Course is a prerequisite to attend!**

## PALS Core Concepts

- Identify and treat medical conditions that place the child at risk for cardiac arrest.
- Understand the systematic approach to pediatric assessment, including general assessment, primary, secondary and tertiary assessment.
- Learn the assess-categorize-decide-act approach to assessment and management of a seriously ill infant or child.
- Understand PALS algorithms and flowcharts
- Develop effective resuscitation team dynamics
