

Come Heal With Us™

PATIENTS

Nearly **7M** Americans are living with chronic or non-healing wounds.

1 in 4 families has a family member with a chronic wound. Caregivers are essential partners in the plan of care for patients.

Approximately **30%** of untreated chronic wounds result in amputation.

50% increase in amputations are associated from pandemic related delays in care. The risk is reduced by nearly half when care is provided by a multidisciplinary wound care team.¹

CENTERS

Patients with wounds that do not receive specialized care at a center are **20 times** more likely to end up hospitalized.

We improve the quality of patients' lives, helping wounds heal faster by providing **world-class wound care**.

Patients with wounds, on average, have **3-4** or more chronic conditions, and may receive care in multiple locations.

We heal more chronic wounds using proven treatment protocols, resulting in better patient outcomes. Our Median days to heal are **28**.

PROVIDERS

Our physicians and nurse partners provide quality care and clinical excellence. Our Patient Satisfaction Rate is **98%**.

If you are living with a non-healing wound, or caring for someone who is, contact a center near you.
